**Notes:**

**Stiffener tubes:**

Stiffener tubes (needed for Full-Lotus float installation) are not included in the standard rigging kit. Stiffener tubes (typically 12ft+ long) can be ordered separately, or can be purchased locally to save on shipping costs.

See here for details: <http://www.full-lotus.com/stiffener-tubes.html>

**Individual Rigging Components:**

Additional Rigging Components may be ordered individually as needed for custom installations.....

See here for details: <http://www.full-lotus.com/prices---rigging.html>

**Options Available from Aircraft Floats Mfg:**

**Upper strut fittings** for Zenair designs (Zodiac or STOL series).....

**Upper strut fittings** for Kitfox IV design.....
